---

Good afternoon Elisha,

I hope you have the opportunity to enjoy some of this beautiful weather today. I wanted to reach out with a few concerns from parent's and guardians with children attending Dundalk & Proton Community School. As we are aware of the proposed build at Hagan/Gold Street it has brought a lot of conversation and concern about the extra traffic this will create. Parent's are worried about how it will impact our students, busses and residents.

The general concern is Safety. We are all aware of the congestion that is caused at our peak times. School drop off and pick-up. Will the addition of 4 new dwellings cause further issue with congestion and therefore impact safety?

Can we make this concern noted while council proceeds on making their decision. And/or can we be given a statement on how council intends to address this congestion further.

Thank you kindly for your time and consideration.
