ATTENTION: Shaneque Johnson, Planning Administrative Support

Dear Shaneque Johnson,

RE: Minor Variance A7-26 (Roberts)
263071 Wilder Lake Road
Roll No. 420706000103100
Part Lot 3, Division 3, Concession 1
Geographic Township of Egremont
Township of Southgate

The above-noted application has been received by the Saugeen Valley Conservation Authority (SVCA) in accordance with the Mandatory Programs and Services Regulation (O. Regulation 686/21) made under the *Conservation Authorities Act* (CA Act). SVCA staff have reviewed the proposal for consistency with SVCA's environmental planning and regulation policies made in conformance with the Provincial Planning Statement, CA Act, O. Regulation 41/24, and associated provincial guidelines.

Purpose

The purpose of the of the minor variance is to allow construction of a ±223 square metre detached accessory building in the front yard of the lot containing an existing residence. Section 5.1(b) of the Township Zoning By-law prohibits accessory buildings in any existing front yard.

Recommendation

The application is acceptable to SVCA staff.

Documents Reviewed by SVCA Staff

Staff have received and reviewed the following documents submitted with this application:

- 1) Notice of Public Meeting;

- 2) Application dated June 12, 2026;
- 3) Site Plan dated February 2026.

SVCA was contacted by the owners regarding pre-consultation for the minor variance proposal.

Natural Hazard Features and Mapping

A large area of the property features lands within the SVCA Approximate Screening Area. The natural hazard features and areas affecting the property include flooding hazards and erosions hazards associated with a tributary of Camp Creek, and any unstable organic soils associated with wetlands/swamp lands.

Based on the plan submitted with the application, the proposed accessory building will be outside/beyond the natural hazard features.

Hazard Mapping

The Environmental Protection (EP) zone on the property generally coincides with SVCA hazard lands mapping for the property, which is appropriate to identify the watercourse and its related flood and erosion hazards.

Provincial Planning Statement (PPS, 2024)

In accordance with s. 7 of O. Regulation 686/21, SVCA shall act on behalf of the Province or as a public body under the *Planning Act* (PA) to ensure municipal decisions made under the PA are consistent with the natural hazards policies of the PPS, Chapter 5.

Section 5.1 of the PPS, 2024 states in part that development shall be directed away from areas of natural or human-made hazards where there is an unacceptable risk and not create new or aggravate existing hazards. Furthermore, section 5.2 states in part that development shall generally be directed to areas outside of hazardous lands and hazardous sites.

Based on the plan submitted with the application, the application is consistent with the natural hazard policies of the PPS, 2024.

Conservation Authorities Act and O. Regulation 41/24

In accordance with legislation, a permit from the SVCA is required for development and interference activities in or near hazardous lands, watercourses, wetlands, unstable soils and bedrock, river or stream valleys, and shorelines. SVCA reviews the proposal to make sure it won't increase risks like flooding, erosion, or land instability, and that it won't put people or property in danger. If the project meets SVCA's policies, designed to mitigate these risks, a permit can be approved.

To determine the SVCA Approximate Regulated Area on the property, please refer to the SVCA's online mapping, available via SVCA's website.

<https://camaps.maps.arcgis.com/apps/webappviewer/index.html?id=f0ec744c8d6d4e499895aaaab3d83761>.) Should you require assistance, please contact our office directly.

SVCA Permit

Based on the plan submitted with the application, the proposed accessory building is located beyond/outside the SVCA Approximate Screening Area, and so future review and permit from the SVCA is not required.

Drinking Water Source Protection

The subject property appears to SVCA staff to not be located within an area that is subject to the local Drinking Water Source Protection Plan.

Summary

SVCA staff have reviewed the proposal for consistency with the PPS 2024 and SVCA's environmental planning and regulation policies made in conformance with governing legislation and technical guidance.

Given the above comments, it is the opinion of the SVCA staff that:

- 1) Consistency with the Natural Hazard policies of the PPS, Chapter 5 has been demonstrated.

Please inform this office of any decision made by the Township of Southgate regarding the application. We respectfully request to receive a copy of the decision and notices of any appeals filed.

Should you have any questions, or require this information in an accessible format, please contact the undersigned.

Sincerely,

A black rectangular box redacting the signature of the Environmental Planning Technician.
