Subject: Proposed Zoning By-Law Amendment Subject Land C26-25 Holstein

Dear Ms Green

We are very much in favour of the rezoning of the former Presbyterian Church in Holstein to be converted to residential use.

In addition, we ask that the Council consider including the possibility of commercial use as well as residential. The property is in the heart of the village and I think (but don't know for sure) that many of the main street properties are zoned for both Commercial and Residential. Of course, specific Commercial use might still require a specific approval.

In our view, this contributes to a long term vibrant village of Holstein.

Thank you,
Regards,
