From the information noted in the application for a three-storey residential apartment/condominium development on this property, it has been determined that **neither section 57 (Prohibited Activities) nor section 58 (Regulated Activities)** applies on the above-noted property, pursuant to the *Clean Water Act, 2006*.

Consequently, **no policies apply to the activities identified in the application**, under the approved Source Protection Plan for the Saugeen, Grey Sauble, Northern Bruce Peninsula Source Protection Region (effective July 1, 2016). However, it is important to note that the property is located within the Wellhead Protection Area B for the Dundalk Well Supply System, whereby the storage of fuel and certain chemicals (e.g. de-greasers, wood strippers, etc.) in quantities greater than 25 litres would require a Risk Management Plan.

If any activities or operations on this property change, please contact this office. If you have any questions, please contact this office (519-470-3000 or toll-free 1-877-470-3001) or via email at c.seider@greysauble.on.ca.
