Dear Ms. Milne,

This correspondence is in response to the above noted application. We have had an opportunity to review the application in relation to the Provincial Planning Statement (PPS) and the County of Grey Official Plan (OP). We offer the following comments.

The purpose and effect of the subject application is to permit the expansion of an existing on-farm diversified use (dry manufacturing – metal works) on the subject lands. The proposed addition would add office and lunchroom space increasing the total size of the on-farm diversified use to about 685 square metres, including the shop, power room, and expanded office. Current zoning allows total floor area of 647 square metres. This would permit an expanded on-farm diversified use (dry manufacturing – metal works) with a larger lunchroom and office. Indoor and outdoor storage associated with the on-farm diversified use would not exceed 595 square metres currently allowed.

Schedule A of the County OP designates the subject lands as 'Rural'. Section 5.2.1(1) states,

*Permitted uses in the Agricultural land use type include:*

*c) On-farm diversified uses (See Table 7);*

In addition, Section 5.2.2(5) of the County OP states,

*MDS I will generally not be required for on-farm diversified uses, except where a municipality has required MDS to apply in their municipal official plan or zoning by-law.*

The proposed expanded on-farm diversified use is permitted within the Rural designation. It is recommended that the use conform to MDS, if indicated within the municipality's Zoning By-Law.

Section 5.2.2 Table 8 states that the on-farm diversified use shall be,

*The lessor of: 2% of the total size of the property, or a maximum combined area of the use of 8,000 square metres.*

Further, Section 5.2.2(17) of the County OP states,

*The gross floor area of the buildings (combined total for all buildings associated with the on-farm diversified uses) shall not exceed 20% of the total area of the on-farm diversified use.*

The subject property is approximately 28 hectares in size which would permit a total area of 5,600 square metres to be used for the proposed OFDU, including all parking, loading, buildings, servicing, and outdoor storage. The gross floor area for any structures would be limited to 1,120 square meters. The applicant's proposed expanded use will not increase the total area and the proposed expanded shop would be 685 square metres, both of which conform with the County OP; therefore, County Planning staff have no concerns.

Section 5.2.2(20) of the County OP states,

*Ministry of the Environment, Conservation and Parks (MECP) D-6 Guidelines, or any successor thereto, shall be considered for any new agricultural-related uses or on-farm diversified uses or an industrial nature in the Agricultural, Special Agricultural, or Rural land use types, to guide the separation of industrial uses from nearby dwellings, institutional uses, or other sensitive non-agricultural uses. Uses which are covered as normal farm practices by the Farming and Food Practices Protection Act (FFPPA) shall not be required to meet the D-6 Guidelines, provided they meet all required Provincial noise, air, water, and wastewater standards.*

Municipal staff shall review the applicability of the D-6 Guidelines to the proposed development.

Schedule A of the County OP indicates that the subject lands contain 'Hazard Lands'. The proposed development is located outside of the Hazard Lands; therefore, County Planning staff have no concerns.

County Planning Ecology staff have reviewed the subject application and have no concerns.

Should the applicant seek to injure or destruct trees on lands that extend more than 15 metres from the outer edge of which a Building Permit has been issued, staff recommend consulting the County's Forestry Management By-law <http://grey.ca/forests-trails>. An exemption to the by-law includes the injuring or destruction of trees required in order to install and provide utilities to the construction or use of the building, structure or thing in respect of which a Building Permit has been issued.

County Forests and Trails Services have reviewed the subject application and have no concerns.

County Planning staff have no concerns with the subject application.

The County requests notice of any decision rendered with respect to this file.

If you wish to discuss this matter further, please contact me.

Yours truly,

Derek McMurdie
